TEXAN BUYS 60,000 ACRES OF MORMON COLONY LAND IN SONORA

Bishop Brown Closes One Deal and Has Another Big One Pending.

Bisbee, Ariz., Sept. 30.—The largest land deal in Sonora since the revolution in Mexico began has been consummated, according to reports that have reached Bisbee. Bishop Brown, of Colonia Morales, has disposed of 60,000 acres of the Pinalcote Mountain ranch about 25 miles south of Douglas to Tom Coggins, a well known Texas cattleman. The sale, including 2500 head of cattle.

A second transfer of 50,000 acres in now being arranged whereby a Texas cattleman named Cochran acquires the remainder of the famous ranch. The bishop is now at San Antonio attending to the execution of the title papers. Not all of the land was sold for cash. It is said that the bishop takes 10 sections of land in Texas as a part of the deal and that this land is to be divided into 100 acre tracts and disposed of by Bishop Brown. This may mean that the Mormon church plans to form a colony in that part of Texas, between Abilene and Sweetwater.

The preliminary arrangement of Robert Arnold, the youth who is charged with killing William Wertz, and mortally wounding F. M. McGovern at Johnson, this county, Monday, is being held in Tombstone today. Mulford Winsor, of Yuma, spoke in Bisbee in the interest of his candidacy for congress from Arizona. He is opposed by Lamar Cobb, a brother of Zach Cobb, of El Paso, among the Democrats, and by John S. Williams, of Tombstone, the candidate of the Republicans.

The first annual Cochise county poultry show will open here on October 5 and run for three days. About 300 entries have been made already, coming from all parts of the county. The first teachers' institute of the year will open in Bisbee Monday and continue through the week. Among those who will attend are president Blome, of the El Paso Normal school, and president Matthews, of the Tempe Normal.

NEFF SAYS NEW STATES
ARE IN EXCELLENT SHAPE

E. E. Neff returned Saturday from a trip through New Mexico and Arizona. He says that conditions were never better in both of the new states, the copper outlook is most encouraging and everyone feels that there is nothing but prosperity ahead for the new states.

Mr. Neff says that a great many people, including the mining men, are planning to come to El Paso for the Statehood Celebration, and that the friendship between El Paso and the southwest was never warmer.

El Paso's Growth Continues.
Many New Homes.

That El Paso is growing very rapidly is evidenced by the fact that there are a large number of residences under construction in the city and the various additions. The Mayfield Realty company, 117 North Stanton, reports that they now have four modern homes under construction, all of which were sold before they were started.

Mayfield states that they will start work next week on three more residences. This firm has built 112,000 worth of modern homes in El Paso and have only one place unsold. The slogan, "We Build and Sell Homes," seems to have been well chosen.

OKLAHOMA HAY PITCHER INHERITS AN EARLDOM IN GREAT BRITAIN

Lawton, Okla., Sept. 30.—W. Joseph Eldridge, a soldier of fortune, once a British cavalry officer, and who now is working as a farmhand on his brother-in-law's farm near Gering, has received word from a New York attorney that he is sole heir to the title and estates of the late earl Myers of Castle Craig, near Glasgow, Scotland. Eldridge was found by a press representative picking hay in the brooding sun. According to his own story, Eldridge, now earl of Castle Craig, emigrated to Canada with his grandfather when he was a child. His father joined the British army as a lieutenant, and saw service in the Boer war, in Egypt and the Boxer uprising, during which he commanded the third detachment of troops to enter the gates of Peking. He then left the British army to come to the United States, where he enlisted as a private in the 11th United States cavalry, and rose to the rank of a non-commissioned officer at Fort Sill. He left the United States service soon after and until recently worked as a day laborer near and around the fort. Eldridge is 32 years old and a bachelor. The fortune he is heir to is reported to be worth \$1,000,000. He is the third cousin of the deceased and the only living male relative.

Again We Repeat

That Pasteurized Milk is the only Safe Milk and here we offer the proof in the opinions of

Six World-Renowned Physicians

Ask your medical adviser who these great physicians are and what their opinions are worth in the medical world.

Dr. Kober

says, "Many epidemics of typhoid have been traced to raw milk."

Dr. Heinemann

says, "In the typhoid epidemic of Cassel in 1909 (over 300 cases within 10 days) only those who drank raw milk contracted the disease."

Dr. Berliner

says, "Typhoid is less frequent in countries where little raw milk is used."

Dr. Edsall

says: "In hospitals where a change was made from raw to properly pasteurized milk typhoid conditions immediately improved and the mortality rate decreased."

Dr. Rosenau

likely the greatest authority on milk, says: "It has been found that among patrons of dairies supplying properly pasteurized milk and cream there occur but very few cases of typhoid."

Dr. Lederle

Health Commissioner of Greater New York, says: "It is impossible to get absolutely pure raw milk unless certified." He therefore suggests the use of Pasteurized milk which has been put in bottles as soon as the process is completed and kept there securely sealed until served.

The Society for Prevention of Sickness of Washington, D. C., after quoting what Kober, Heinemann, Edsall, Berliner and Rosenau say against the use of raw milk and in favor of pasteurized milk, add: "Milk trusts and others have spread the reports that pasteurizing was harmful. Able sanitarians have often disproved this. Children and persons in a rundown condition should not drink raw milk and cream; it is rarely safe to do so."

Have we proved our case? We think so, and on the strength of it we feel satisfied you will give us your trade and thereby make sure that you are on the safe side.

Our milk is thoroughly pasteurized by the latest scientific methods and we are the only dairy here that has a pasteurizing plant.
